All charters meet at Anacortes Diving at 7:30 am unless otherwise posted. Charters do not include any equipment or tanks, please make arrangements for rental if needed. Make sure tanks are full, there is no tank filling available on the boat.

Diving in the San Juans is for experienced divers only. The boat is "live" so no anchoring. While we do our best to plan for the least amount of current during the dives, currents can be unpredictable. You need to be very comfortable with unexpected down or upwelling's and fast drifts.
