AlamBatu Beach Bungalow Resort, located in north-eastern Bali, has everything to get divers' hearts beating a little faster – a dream destination for novice divers and professional photographers alike. Countless thrilling coral and muck dive sites in the vicinity offer unique diversity. Besides the house reef, you can reach all the dive sites in no more than 20 minutes on one of our fast boats. The coral diversity varies from soft corals, black corals, table corals and gorgonians up to 2 meters in diameter. The corals shelter a fantastic underwater world with many schools of fish (including juvenile barracudas, snappers), reef sharks, sea horses, harlequin shrimps and other critters. By boat it only takes 15 minutes to get to the "Liberty" wreck.

"Small is beautiful": that's the motto at this resort, which accommodates no more than 30 guests. Visit the spa for an invigorating massage or a relaxing floral bath. This resort, away from the hustle and bustle of Kuta, offers some of the best muck diving sites in Bali. With great food and a wonderful spa it will be a dive vacation to be remembered.
