## VANCOUVER ISLAND BRITISH COLUMBIA

### ADVANCED DIVER WRECK WEEKEND

## Feb 23 & 24, 2019

Join us for diving one of the worlds largest artificial reef systems in Nanaimo. The HMCS Cape Breton, HMCS Saskatchewan and the smaller Riv Tow Lion are all located within a 15 minute boat ride from the harbor. The Cape Breton is a decommissioned 500ft Navy supply ship, she has a 60 ft beam and 90 ft high superstructure. The Saskatchewan is a 366 ft destroyer sunk in 1997, so there is plenty of growth and fish life. There are many other dive sites in the area such as Dodd Narrows, Snake Island Wall, Clarke Rock or Jesse Island. We can't dive them all in one weekend, but our goal is to dive the wrecks weather permitting. Only 9 spots available!
