## MISOOL ECO RESORT

FEB 21-MARCH 6, 2021

Raja Ampat's marine environments are out of this world. The reefs are a painter's pallet of color and variety, home to over 1200 species of fish and more marine life than anywhere else on the planet. Big animals are common here, with Manta Ray cleaning stations, schools of Mobala rays and plenty of Shark sightings. One of the rarest sharks seen in these waters is the Woebegong Shark and the walking Shark.

The diversity of dive sites is remarkable; there are some areas where soft corals and sea fans dominate, others with spectacular hard coral seascapes, mangroves, shallow reefs, drop offs, caves, black sand, white sand and seagrass beds. All of these environments combine to house a huge amount of marine life, in more shapes and sizes than anywhere else in the world. All levels of the food chain are well represented, from Pygmy Seahorses to top predators and everything in between. The reefs of Raja Ampat literally buzz with life - beware, sensory overload here is a common problem.

Misool Eco Resort is a true tropical hideaway, just south of the equator and fringed with powder-white beaches and pristine coral reefs. Your stay at Misool Eco Resort directly supports conservation initiatives, our No-Take Zone, as well as the local community.

Our accommodations have been meticulously designed for comfort, privacy, and sustainability. All of our rooms feature Balinese-style open air bathrooms, air-conditioning, fresh hot and cold showers, mini-bars stocked with treats from around the archipelago, and handcrafted furniture and fittings. Our eight rustically luxurious Water Cottages are built on stilts over the North Lagoon, just steps from the Dive Center and restaurant. For lazy afternoons with a good book, there is a hammock built right into the veranda. The view from your veranda is framed by a traditional grass roof, offering a high degree of privacy as well as shade. Stairs lead down from your veranda to the North Lagoon, and the House Reef is just a few fin kicks away.
