

SAN IGNACIO LAGOON GRAY WHALE ADVENTURE

March 18 – 23, 2026

San Ignacio Lagoon, Baja-Mexico... San Ignacio Lagoon is the primary calving ground for eastern Pacific gray whales and part of Mexico's El Vizcaíno Biosphere Reserve. The large concentration of

gray whales that reside here each winter are extremely 'friendly,' and regularly approach our small whale watching pangas (skiffs) in a moving display that occurs nowhere else. These whales will steal your heart when they look you in the eye and swim over to interact. The lagoon and surrounding desert are beautiful, and these trips are done in style, offering glamping and luxury camps, with direct 1 hour 50 minute fly-in flights from Cabo San Lucas.

Package includes:

- Airport/Hotel transfers
- Photo workshop & afternoon whale watching trip the day prior to departure to San Ignacio Lagoon (March 19)
- Private flight to San Ignacio Lagoon
- 4 days/3 nights at BajaEx camp in Luxury camping tent
- All meals provided at camp
