# COVID PROTOCOL

Our job is to keep our guests and crew safe. Now more so than ever during the COVID-19 crisis. We are requesting and requiring guests to monitor and record their body temperature twice a day on the week before boarding. **Please ensure you arrange for a PCR or antigen test within 7 days of boarding. We will also be providing complimentary antigen testing before boarding. This is required for your safety and that of our crew.** If you test positive in Cabo San Lucas, we will arrange for a medical diagnosis and if the virus is active, you are required by law to go into 14 day quarantine. Per CDC guidelines, if you test positive and are asymptomatic it is recommended that you get a second test. A false positive could occur, in which case you will want the retest results. If you do test positive, we require a doctor's note or medical report confirming the diagnosis, and you will receive a full credit towards a makeup trip on a later date of your choice. All of our crew members are regularly tested, both on and off the boat.

Please bring your printed results and your temperature log with you for pre-boarding check-in. Please be at the SeeCreatures Cabo by 4pm on Saturday, for the mandatory antigen test before boarding the boat. Boarding is at 7:30pm and we will be sailing into the sunset with drinks in hand as we cruise to the Sea of Cortez.

We hope that everyone is staying healthy and safe. Our goal is to get divers back in the water in a way that maximizes safety and minimizes contagion. As the situation with COVID-19 evolves, we will continue to adapt and improve the measures we are taking.

- **We are requesting and requiring guests to monitor and record their body temperature twice a day on the week before boarding**
- **Masks are mandatory in all common areas unless seating during meal times**
- **Social distancing at dive skiffs, staggered meal times and briefings**
- Vital Oxide hospital grade disinfectant with 7 day hold time applied with fogging machines
- An intense focus on onboard sanitation. This includes supplying sanitized rental gear in vacuum packs, crew assisted buffet service and automatic hand sanitizer dispensers on the back deck. Mask rinse buckets are unfortunately a thing of the past.
- Temperature and health checks
- Protocols and equipment in place if someone onboard does get sick

We cannot promise that there won't be somebody onboard infected with the virus but we can promise that we will do our best to provide the most thoughtful, safest and healthiest possible environment. Our COVID-19 policies have been formalized within our emergency processes, our SMS safety management system, our training and accountability protocols and our onboard daily checklists as well as in consultation with shore side authorities. Please stay safe.
