

Papua New Guinea

October 27-November 12, 2025

Located in Asia Pacific's Coral Triangle, Papua New Guinea lies just south of the equator and 100 miles to the north of Australia, encompassing the eastern side of New Guinea Island plus 600 smaller islands and atolls.

Papua New Guinea (PNG) is **THE** scuba diving destination for anyone looking for **pristine coral reefs, extremely rich marine life, and exotic culture in off-the-beaten-path locations**. You will be diving on some of the most beautiful reefs and sea mounts in the Bismarck sea, with abundant fish life amongst picturesque and dramatic volcanically formed reefs. The area is home to a variety of fish, crustacean and invertebrate life and many of the reefs have resident schools of barracuda, tuna and jacks. A range of shark species are regularly sighted, including hammerheads and silvertips, particularly on the offshore reefs.
